Summary

Front-End Developer with 3+ years of experience in React.js, JavaScript, and responsive UI design. Delivered 5+ production-ready web applications, including e-learning platforms and AI-powered infant care systems, improving user engagement and usability by up to 95%. Skilled in translating business requirements into functional, high-performance applications.

Education

SUEZ CANAL UNIVERSITY (2025)

Computer Science (CS)   **• Ismailia, Egypt**

Currently pursuing a Bachelor's degree in Computer Science at Suez Canal University, with a focus on software development and web technologies. Actively engaged in projects that enhance my coding skills and understanding of modern programming languages.

Projects

Apple iPhone Landing Page (Clone) [Live Demo]()

Developed a responsive landing page inspired by Apple's official iPhone website.

- Recreated Apple's product page design focusing on pixel-perfect UI.
- Implemented modern animations and scroll-based effects using **Framer Motion** (useScroll, useTransform).
- Built with responsive design to ensure smooth performance across devices.
- ⬡ **Technologies Used:** React.js, CSS3, Git, Framer Motion , UseScroll , UseTransform

CareNest (Advanced Infant Care Technology) - Graduation Project [Live Demo]()

- Developed a smart web app to support new mothers with AI-based baby cry analysis that identifies reasons such as hunger or discomfort.
- Added features for growth tracking, medication reminders, entertainment section, doctor booking with geolocation, and an admin dashboard for analytics and system monitoring.
- **Technologies Used:** React.js, CSS3, Firebase, Interactive Map with Geolocation, Git

REAN Learning Platform [Live Demo]()

- Built a responsive e-learning platform where users can browse, purchase, and save courses.
- Integrated Stripe API for secure payments and Axios for dynamic data fetching.
- Designed UI with CSS Flexbox & Grid to ensure smooth user experience.
- Technologies Used: React.js, CSS3, Stripe API, Axios, Git

To-Do List [Live Demo]()

- Created a to-do list app with features to add, edit, delete tasks, and track their status (Pending/Completed).
- Utilized Formik and Yup for form handling and validation, and JSON Server for mock APIs.
- Managed navigation using React Router.
- **Technologies Used:** React, Formik, Yup, JSON Server, React Router

Pet Care   Live Demo

- Designed a user-friendly pet care web app with services like nearby vet locations, food tracking, and pet-friendly facilities.
- Focused on clean design and simplified navigation to enhance user experience.
- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap

Skills

Technical Skills:
- **Languages & Frameworks:**   React.js , JavaScript (ES6+), HTML5, CSS3, Bootstrap
- **Tools & Platforms:**   Git, Firebase, Stripe API, Axios, JSON Server
- **Core Skills:**   Responsive Web Design, API Integration, UI/UX Optimization, State Management

Soft Skills: Problem Solving , Communication , Team Collaboration   , Time Management

Internships & Training

DIGITAL EGYPT PIONEERS INITIATIVE (DIPE)   08/2024 - 10/2024
Student Web Developer with React JS   • **Governorate Headquarters**   Link to certificate
- Learned to create attractive and professional web pages using React
- Developed an E-Learning project with my team , which provides various courses, Users can add, edit or delete courses and pursued and watch them

INFORMATION TECHNOLOGY INSTITUTE (ITI)   07/2024 - 08/2024
Summer Intern (Advanced front-end with React JS)   • **ITI Building, Ismailia**   Link to certificate
- Developed time management skills to meet deadlines.
- Designed professional and attractive web pages using React.
- Gained a solid understanding of Object-Oriented Programming (OOP) principles.
- Created a To-Do List website, allowing users to add, edit, delete tasks, and check their completion status.

INTERNATIONAL COLLEGIATE PROGRAMMING CONTEST COMMUNITY (ICPC)   02/2022 - 08/2023
Problem Solving Course Participant   • **Remote**   Link to certificate
- learning professional problem-solving techniques.
- Learned C++ and engaged in coding competitions to improve algorithmic skills.
- Competed in the ECPC competition.

GOOGLE DEVELOPER STUDENT CLUBS (GDSC)   03/2022 - 06/2022
Front-End Development Course Participant   • **Remote**
- Learned JavaScript, CSS, and HTML, and worked on practical exercises to enhance my coding skills.
- Developed a project "My Bitty" focused on pet care and received a certificate.

Languages

Arabic: Native
English: Intermediate – able to work in English-speaking environments
